12 Games In 1

Tournament Table is a 12 game sports extravaganza that will keep patrons entertained for hours—and coming back for more!

Players can "program" any of the 12 games they want to play. Every time the 'Game Select" button is pressed, each of the 12 games appears sequentially on the monitor along with the name of the game for easy identification and selection. Game names are also printed on the bezel around the monitor so players can find the desired game quickly. Pressing one of the 'Start" buttons begins the action.

More Games. More Fun. More Profits!

The action is challenging and competitive. Three different play options on specific games add to the variety. There is the "catch' option which holds the ball on the paddle, the 'whammy" option which makes the ball go faster, and the "jump" option which makes the paddles jump. Games include:

Breakout™: 1 or 2 players on the popular, profitable Breakout game with a new black and white checkerboard brick design.

Soccer I: 2 or 4 players compete to hit the goal with the "whammy" feature included. Each player has 2 paddles.

Soccer II: 4 player soccer game with 'catch" feature. Each player controls 1 paddle.

Foozpong™: A video version of foosball for 2 or 4 players with the "catch" feature to add to the realism.

Hockey I: 2 or 4 player hockey type game with a 'whammy" feature and 1 paddle per player.

Hockey II: The hockey game with a 'catch" feature built-in for 2 or 4 players. Each player has a column of paddles.

Hockey III: A 2 player version of hockey with 'catch" option and 3 paddles per player.

Quadrapong™: A new 2 or 4 player version of the exciting four sided Pong game with two goals per player.

Handball: 2 or 4 players compete on this realistic video handball game with the "whammy" feature option to add to the challenge.

Volleyball: 2 or 4 players compete in teams to get the ball over the center net with paddles that move horizontally on the screen. "Jump" feature is included.

Basketball I: 2 or 4 player basketball game with a "jump" feature can be played in teams or as individuals.

Basketball II. 2 or 4 player basketball game with a "catch" feature.

New Cabinet Design ... New Profit Opportunities

Tournament Table is the first cocktail video game *practically* designed not only to offer more entertainment value, but also to blend into and complement *any* location decor requirements. A clean, exciting, contemporary look is enhanced by rich woodgrain side panels and understated, obstruction-free table surface. The controls are also simply laid out and easy to understand.

The unique new table top is a tough one-piece scratch-resistant acrylic part that also lifts easily for quick access to components.

More Options. More Profits

Extended Play. BREAKOUT can be operator set to award an extra credit for achieving score levels of 200, 250, 300, 400, or 500 points. The extra credit can be used to play *any* of the 12 different games.

Length of game can be adjusted by setting to 11 or 15 points to win on all paddle games.

Four Languages. Operators may select English, French, German or Spanish video message presentations.

Coinage. 16 optional coin modes including 1 or 2 plays per coin or 2 coins per play.

Built-In Reliability

Self-Test System. Atari's unique self-diagnostic system is built in for fast on the spot trouble shooting. Activating the system displays all micro processor and memory functions, including options.

Dependable Durability. Durastress™ tested all solid-state electronics, durable construction and Instapart™ parts turnaround means longer maximum earnings potential and location life.
